STEELUS

Concrete Dreams Steel Reality

Get to Know Steelus

Steelus Equipment operates as a subsidiary of G&S Industrial, with our origin dating back to 2012 as a part of the Elephant Heavy Industrial Group.

Following our rebranding in 2022, our primary objective has been to elevate the dependability of every component within our concrete pumps.

We recognize the considerable cost implications associated with troubleshooting. This is the reason we take great care in using robust materials in the production of our concrete pumps.

Steelus Story ”

Our journey began in 2010 when we first ventured into international trade, focusing on exporting chassis and superstructures.

Since then, we've been on a constant path of growth and development. In 2022, we reached a significant milestone by starting our own production of concrete pumps.

Our STEELUS concrete pumps reflect the knowledge we've gained from handling and servicing all types of construction equipment.

”

Our concrete pumps have been meticulously designed, taking into account valuable input from our long-term clients with whom we have maintained a fruitful partnership for the past ten years.

Alongside expanding our product range, we've also grown our company and made some serious investments in helping our employees grow professionally.

We make sure to stay on top of all the latest industry trends and innovations. Therefore, you can count on our expertise to meet your ever-evolving needs.

Steelus Mission

Committed to customer satisfaction, STEELUS provides personalized solutions, prompt support, and unparalleled after-sales service, ensuring a seamless experience for our clients.

With a focus on sustainability and responsible manufacturing practices, STEELUS aims to shape the industry's future, revolutionizing how the world constructs its concrete foundations.

Steelus Vision

Our vision at STEELUS is to become the world's premier concrete pump manufacturer, renowned for our cutting-edge technology, exceptional customer support, and dedication to sustainable manufacturing practices.

We aspire to revolutionize the construction industry by offering personalized, reliable, and efficient concrete pumping solutions while fostering enduring relationships with our valued clients.

STEELUS

Steelus Experience

When you choose STEELUS, you do not just get cutting-edge concrete pumps; you become part of our extended family.

Our customer-centric approach ensures that your needs are heard and understood, allowing us to tailor solutions that fit your requirements.

Steelus People

Our greatest asset is our people.

From the seasoned engineers to the skilled craftsmen on the assembly line, every individual at “STEELUS” plays an integral role in our journey.

We take immense pride in the diverse talents that converge under our roof, each contributing their unique perspective to the creative process.

SPT38Z4

Pioneering the Concrete Jungle with Safety and Efficiency

DIMENSIONS & WORKING RANGE

SPECIFICATIONS

BOOM SPECIFICATIONS

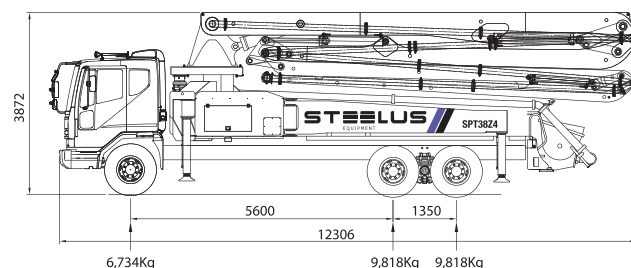

Vertical Reach	36.2m
Horizontal Reach	32.5m
Reach from front of Truck	28.2m
Unfolding Height	8.4m
Depth Reach	20m
Rotation	360°
End Hose Length	3.5m
Delivery Line	125mm

PUMP SPECIFICATIONS

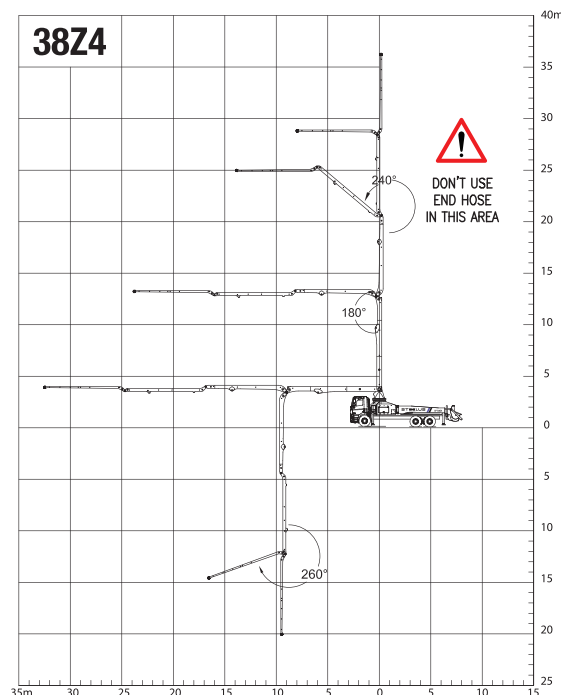

Max. Output	162m³/h
Concrete Cylinder	Ø230X2100
Stroke per Minute	30
Concrete Pressure	70bar
Hopper Capacity	0.6m³
S-Tube	S2018
Hydraulic Pump	REXROTH
Radio Remote	AUTEC, HBC(OPTION)
Max Aggregate Size	40mm

※ STEELUS hereby reserves the legal right to amend these specifications as deemed necessary.
